Public Health Nursing

The Public Health Nurse can help if you:

- Are pregnant
- Have a baby
- Need immunizations
- Are exposed to a communicable disease
- Want information about family planning
- Are concerned about a child with a health problem or problems with parenting
- Want to learn about good nutrition
- Have questions about the physical or emotional health of any member of your family

- Are without a source of medical care
- Are concerned about a health problem
- Have lost a loved one

ANYONE MAY REQUEST PUBLIC HEALTH NURSE SERVICES. THERE IS NO CHARGE FOR THESE SERVICES

What does the Public Health Nurse Do?

The nurse helps individuals and families:

- Determine health needs
- Understand the significance of health problems
- Plan for health care
- Learn positive health practices
- Use community resources

The Nurse Does:

- Health evaluations
- Teaching
- Counseling

Mission Statement

The mission of Public Health Nursing is to promote and maintain optimum wellness for individuals, families and communities. Public Health Nurses consider the physical, emotional, psychosocial, spiritual and cultural factors that impact the clients that are served.

The Public Health Nurse works as a team member with other health providers, community leaders and organizations, interdisciplinary groups, populations at risk and families and individuals. Public Health Nurses are advocates and are involved in relevant health and social issues.
